NATIONAL METAL PRODUCTS COMPANY
WATERLOO IOWA

CABINET DIVISION PLANT

National

THE reputation of National Cabinets and Specialties was established by the production of quality products and prompt service to over seven hundred wholesalers, and to approximately ten thousand dealers.

National facilities are specialized for the production of Steel Cabinets and similar specialties. We produce only one quality . . . THE BEST. The processes entering into the manufacture of National Cabinets is illustrated and explained in this catalog, because these details are extremely important in products that must be as permanent as the building itself, of which they become a part.

The National policy of protecting jobbers and dealers has won for us the cooperation and good will of the trade.

We thank all our old customers for their continued patronage . . . and invite new accounts on our guarantee of: "if you're not satisfied, you may return the merchandise."

Yours for a pleasant and profitable business relationship.

C. E. Butler

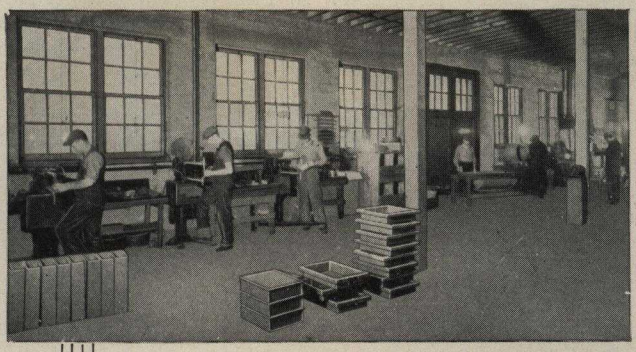
National Metal Products Company

WATERLOO, IOWA

BEST OF MATERIALS FINEST WORKMANSHIP

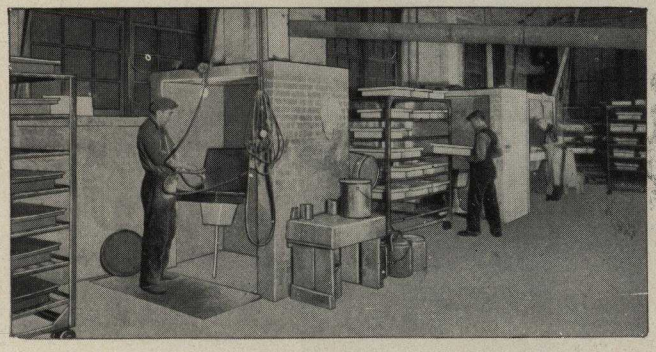
Durability and Beauty Built Into National Products

A VISIT to the National factory convinces any builder, architect or engineer of the durability of National Products. Cabinets become a permanent fixture of the building. They are seldom, if ever, replaced and must be as durable and lasting as the walls or plumbing fixtures. Every precaution is taken to make National Cabinets so strong and their finish so permanent that they will never need replacing or refinishing. The views below were taken in four of our nine large departments, in our big, new, daylight plant, which covers about three acres of factory space.



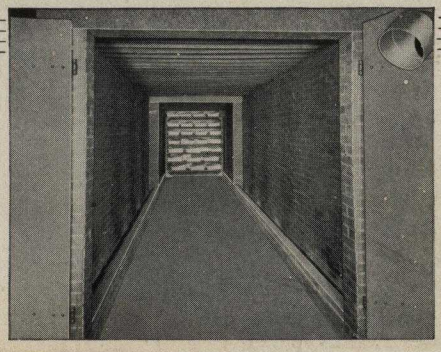
View in Metal Department

The durability of National Cabinets is first apparent in this department. In the three rooms of this Department, the forms are cut and shaped from the best grade of new steel sheets; they are also electrically welded into one piece solid steel cabinets. There are no rough edges, no bolts, nuts or screws exposed. Each cabinet is constructed as carefully as if it were to be the most important fixture in the home.



Spray Booths in Enamel Department

Expert workmen spray each cabinet with several coats of the highest quality baking enamel. Spraying, in place of brushing or dipping, assures a heavy but even coverage on the edges, and in the corners, as well as on the flat surfaces; and the most beautiful finish possible, both inside and out. No brush marks, no runs.



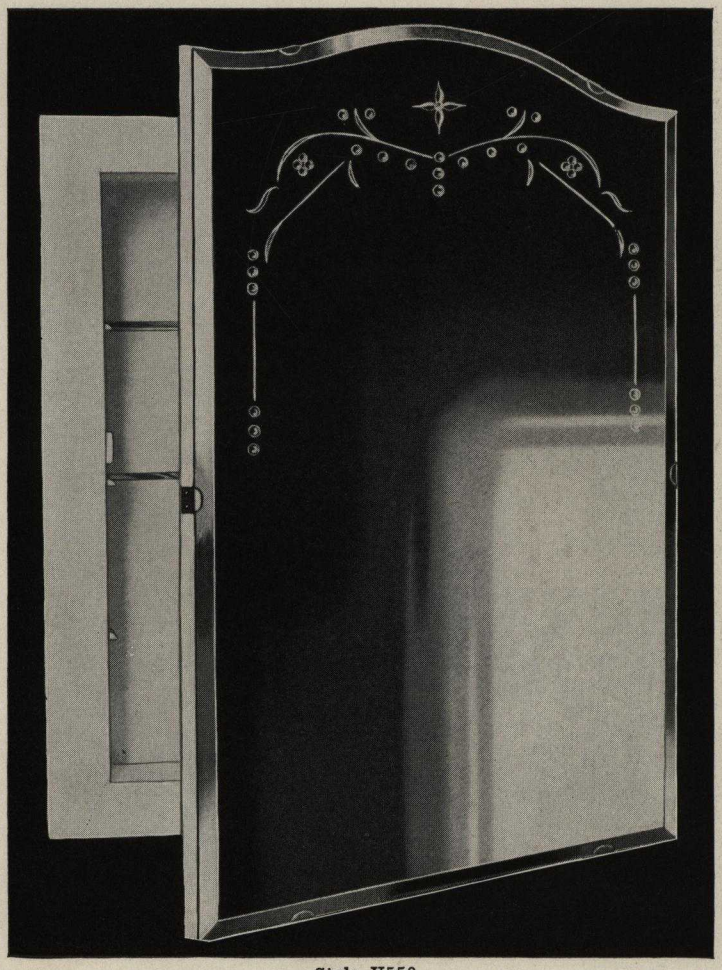
Baking Ovens

Picture to right shows interior of one of our nine large brick baking ovens, into which large racks holding about 100 cabinets each are wheeled for baking. The fresh sprayed enamel is baked on National Cabinets for hours in one of these large ovens under intense heat. The special baking process does away with cracking, peeling, scaling or turning yellow. National Products retain their original lustre permanently. No cabinet can be given a higher quality or more durable finish.

Inspection Department

Every National Product is given a double inspection for flaws of workmanship or defects of any kind. A National Cabinet must be perfect in every respect to pass this rigid inspection. National Products are *built up to a standard* and not down to a price. Home owners know that it is false economy to install a cabinet that will ever need replacing; that's why their choice is a NATIONAL CABINET.

DeLuxe Mirror Front Recessed Cabinets



Style V550

No. V-550 Recess Cabinet

This all steel recess type cabinet is perfectly exquisite and one of our best sellers. With 18x22" Venetian beveled plate mirror, artistically etched and mounted on felt padded one piece solid steel door with polished monel metal clips. No holes drilled to weaken mirror. Style S-900

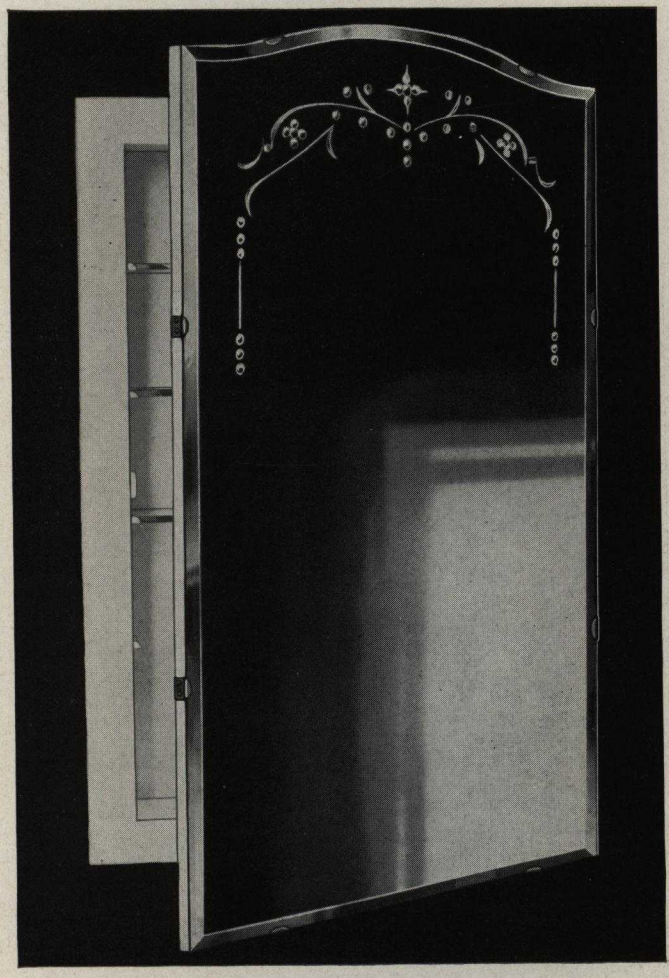
DeLuxe Mirror Front Recessed Cabinets



Most Popular Design

Venetian bevel plate mirror 18x28" with beautiful polished and satin finish etching—mounted on felt padded one-piece solid steel door with polished monel metal clips. Friction ball catch on door. Three adjustable plate glass shelves. Cabinet frame 16⅞ x 25⅞". Wall opening 13⅞x23⅛x2⅞". Inside depth 4". Shipping weight 35 lbs.

Our Very Finest

This all steel cabinet is our most popular design and cannot be surpassed for style, permanence and beauty. It will satisfy the most fastidious taste, and when you have seen it you will agree with us it is second to none.

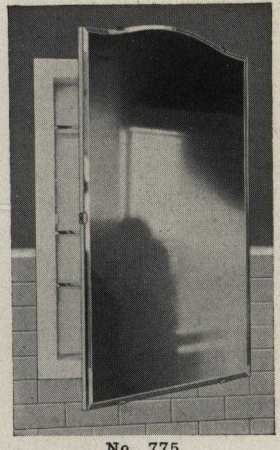
Highest quality ⅜" bevel plate DeLuxe Venetian Mirror door.

Invisible hinges with door stop combination, sturdy in design, door never sags—open and closes very easily and noiselessly—forever.

Permanent Sno-white enamel BAKED on — gives pure white, fresh appearance—and lasts indefinitely.

D-500 Venetian-Mirror Front Recess Cabinet

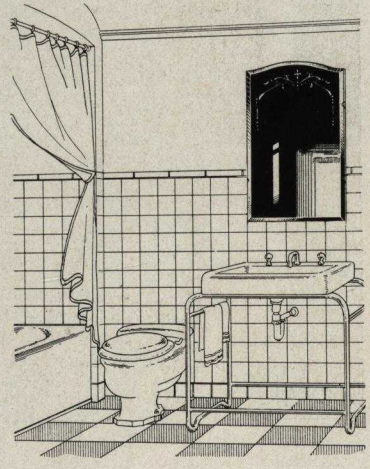
This number and our No. 775—with plain bevel plate mirror, shown below, are very best in quality, very latest in design, and suitable for the best of bath rooms. You will never regret selecting either our D-500 with the etched mirror, or our No. 775 with plain mirror, for a permanent fixture in any building.



No. 775

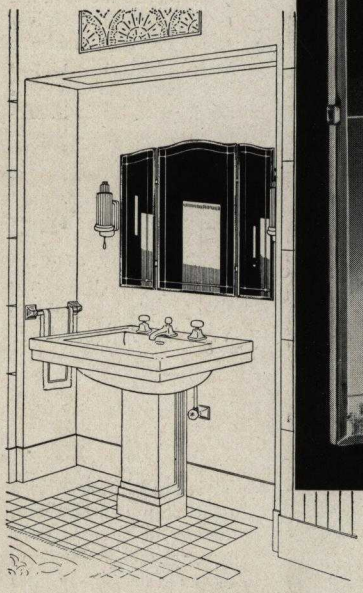
No. 775 Plain Bevel Plate Mirror-Front Cabinet

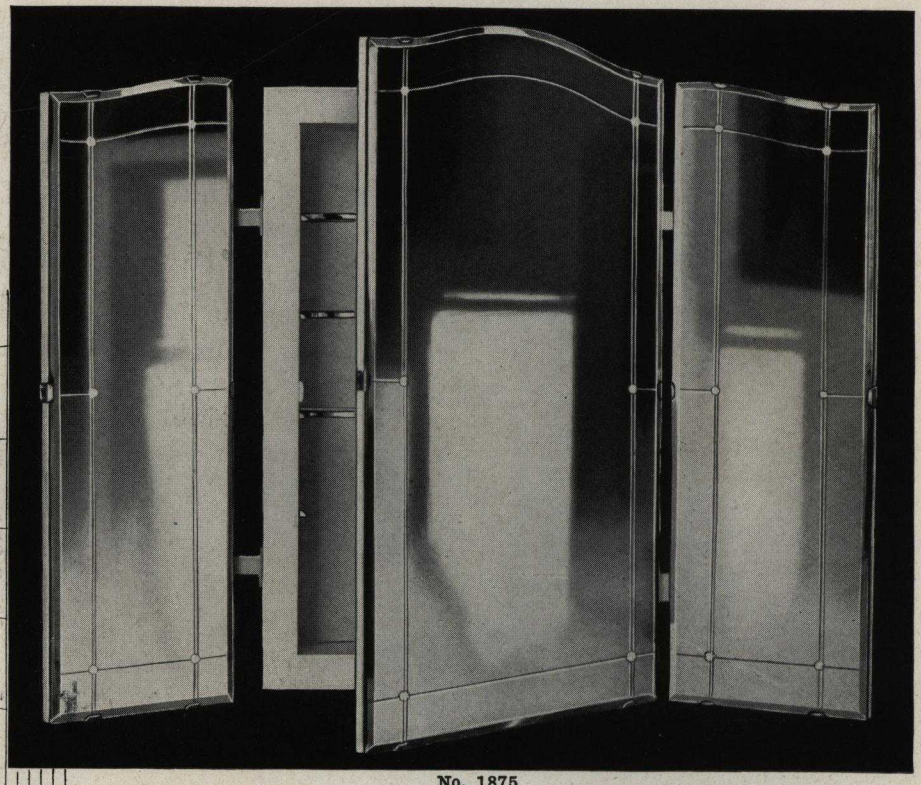
This all steel cabinet is the same as our No. D-500 above, except with plain ⅜" bevel plate mirror—mounted on felt padded solid steel door, with polished monel metal clips. Friction ball catch on door. Invisible hinges with door stop combination. Three adjustable plate glass shelves. Sno-white BAKED ENAMEL finish. Cabinet frame 16⅞x25⅞". Wall opening 13⅞x23⅛x2⅞". Inside depth 4". Shipping weight 35 lbs.



DeLuxe Mirror Front Recessed Cabinets

This winged mirror cabinet adds grace and charm to the entire room. Where wall space is available this type mirror gives an appearance of substantial comfort—and an air of elegance.

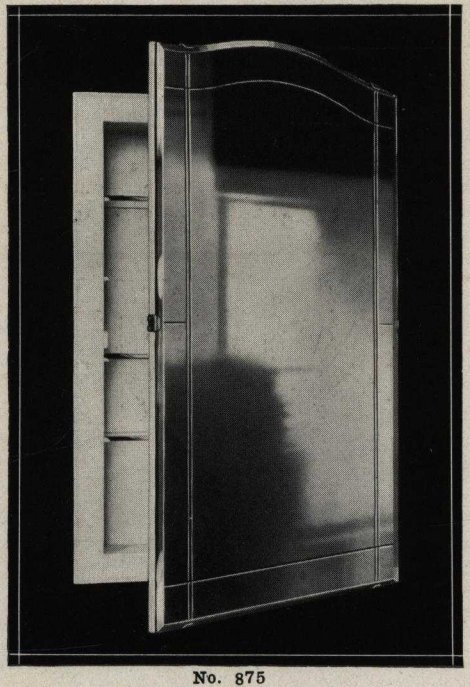




No. 1875

No. 1875 Mirror-Front Cabinet with Mirror Wings

One of the most useful, and practical fixtures of the home—This particular design is worthy of the richest setting, and will be a source of pride and satisfaction to the owner for many years—not only for its dignity of appearance but for its utility and convenience. This is a perfect cabinet for shaving, and dressing the hair. The large adjustable wing mirrors insure perfect vision of the head, back and shoulders. The beveled plate wing mirrors with mitre engraving are 8⅞x26¾". The center bevel plate mirror with mitre engraving 18x28". The mirrors are mounted on one piece felt padded solid steel backs, with polished monel metal clips, invisible hinges with door stop combination. Friction ball catch. Three adjustable plate glass shelves. This all steel cabinet is beautifully finished in permanent Sno-white BAKED ENAMEL—has a frame 16⅞x25⅞x4". Wall opening 13⅞x23⅛x2⅞". Shipping weight 52 lbs.



No. 875

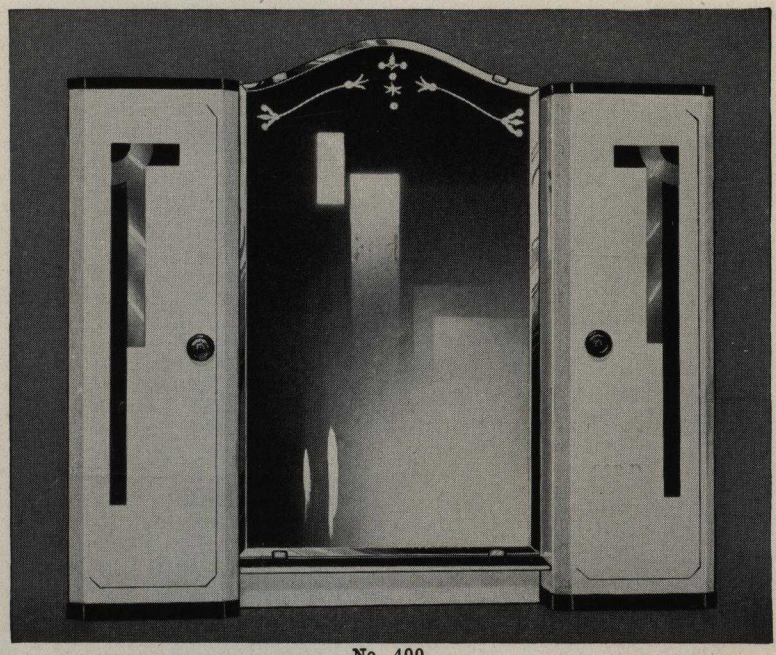
No. 875 Mitered Bevel Mirror-Front Cabinet

This all steel cabinet—the same as our No. 1875 winged mirror cabinet above—except without the side wings—is finished with Sno-white BAKED ENAMEL finish and equipped with the finest beveled plate mirror with mitre engraving, size 18x28". Mirror attached to the felt padded solid steel door with polished monel metal clips with rubber pads to protect the mirror. Invisible hinges with door stop combination. Friction ball catch. Three adjustable plate glass shelves. Cabinet frame 16⅞x25⅞". Inside depth 4". Wall opening 13⅞ x 23⅛- x 2⅞". Shipping weight 35 lbs.

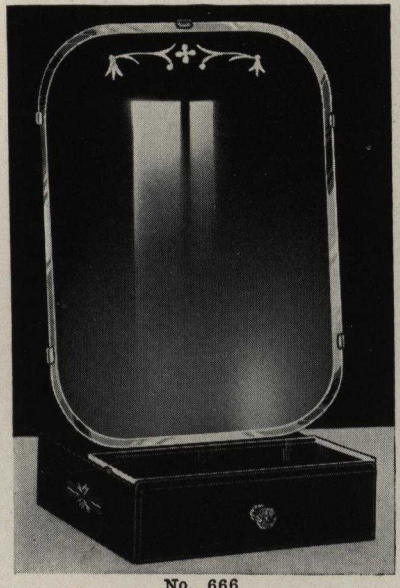
Something New... Beautiful ... Modernistic

No. 400 Wall Cabinet 2-Compartment

This all steel cabinet—modernistic in design—is very practical and convenient. Doors have black bakelite knobs and are decorated with highly polished monel steel strips and raised strips trimmed with black lacquer as illustrated. The steel bands around compartments are finished in black lacquer. Cabinet finished with Sno-white BAKED ENAMEL. Wall size 29⅜-x 26½". Each compartment is 4½" deep, size 7½x24" equipped with three plate glass shelves and a one-piece solid steel door on invisible hinges. Friction ball catch. Highest quality bevel plate engraved mirror, size 14x24", with a handy plate glass shelf 3x14" mounted at bottom of mirror. Shipping weight 38 lbs.



No. 400



No. 666

No. 666 Make-Up Cabinet

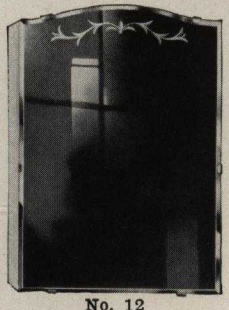
Another new creation illustrated at the left. Attractive in appearance. Consists of tilting mirror adjustable to any position—mounted on steel box with glass shelf, size 5⅜x11", and drawer 9½x7", 2½" deep. Highest quality round-cornered engraved bevel plate mirror size 14x18". Compartment box 11x11", 3½" high. Compartment beautifully and permanently finished in mahogany, green, or Sno-white genuine BAKED ENAMEL. Neatly decorated on both sides. Shipping weight 20 lbs.

The handy "Make-Up" Cabinet can also be used to good advantage as a shoe or dress mirror, by setting the cabinet on the floor and tilting mirror to suit.

Wonderful Value . . . Low Priced Wall and Recess Cabinets

No 10 Recess

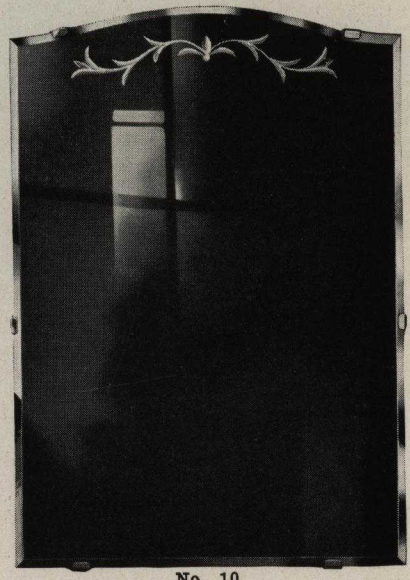
This all steel recess cabinet illustrated at the right has aristocratic appeal but is priced extremely low. This cabinet has the three requisite features—beauty and durability combined with economy. We recommend this cabinet as thousands have been installed in homes of the most critical. Best quality engraved Venetian mirror 16x24", mounted on solid steel felt padded back with polished monel metal clips. Invisible hinges with door stop combination. Friction ball catch. Three adjustable plate glass shelves. Genuine Sno-white BAKED ENAMEL. Frame 15x22". Inside depth 4⅛". Wall opening 13⅛x20x3⅛". Shipping weight 24 lbs.



No. 12

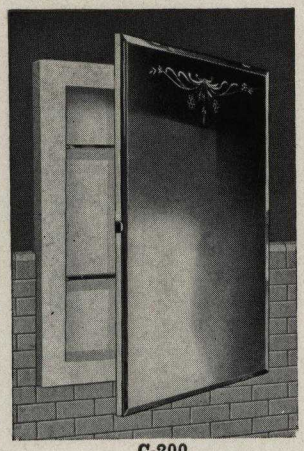
No. 12 Wall Cabinet

This most attractive all steel Venetian Mirror wall type cabinet—illustrated at the left—is a most popular cabinet where a recess cabinet cannot be installed, and is in the same class with our No. 10 recess cabinet described above. Three adjustable plate glass shelves. Mirror size 16x24" mounted on solid steel felt padded door with polished monel metal clips. Friction ball catch. Invisible hinges with door stop combination. Sno-white BAKED ENAMEL finish. Cabinet size 15⅛x22x4". Shipping weight 24 lbs.



No. 10

Utility All Steel Household Cabinets



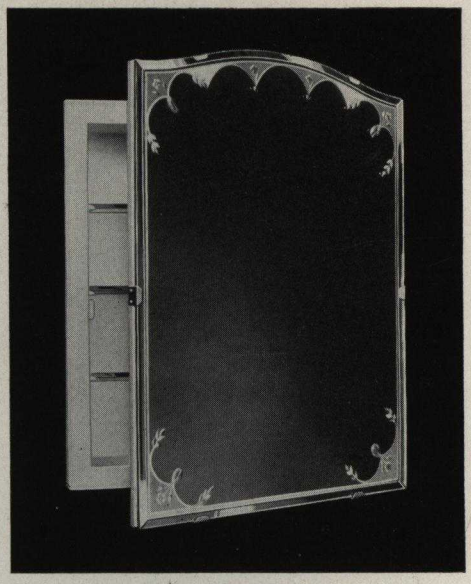
C-200

No. C-200 Recess Cabinet

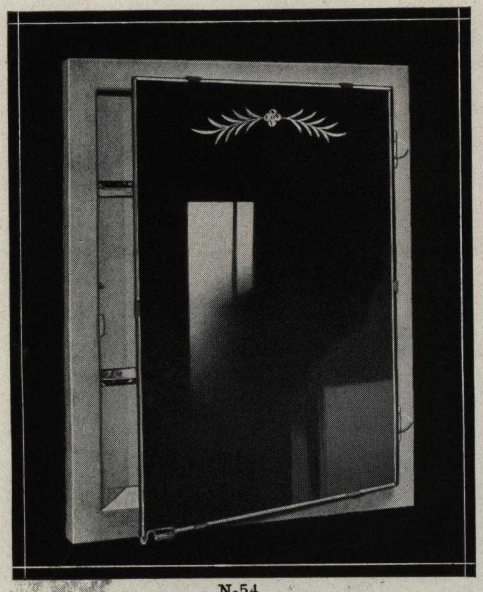
This all steel Venetian Mirror cabinet to the left has an attractively etched mirror which appeals to thousands of the most critical buyers who prefer a mirror door with square top. We recommend this cabinet for the finest homes, apartments and hotels. The 18x22″ bevel plate mirror is mounted on a solid steel felt padded door with polished monel metal clips. Friction ball catch. Invisible hinges with door stop combination. Two adjustable plate glass shelves. Finest Sno-white BAKED ENAMEL. Frame size 16¾x20⅝″. Inside depth 4″. Wall opening 13⅞x18x2⅞″. Shipping weight 29 lbs.

No. 750 Recess Cabinet

The all steel Venetian Mirror cabinet to the right was designed for those who prefer more engraving on the mirror. This mirror has polished and satin finished engraving around the entire outside edge, which gives a very rich and attractive appearance. There is no coloring in the engraving to make the mirror gaudy. The 16x20″ bevel plate mirror is mounted on a solid felt padded steel door with monel metal clips. Friction ball catch. Invisible hinges with door stop combination. Two adjustable plate glass shelves. Finest Sno-white BAKED ENAMEL finish. Cabinet frame 15x17¾″. Inside depth 4″. Wall opening 13¼x16x2⅞″. Shipping weight 24 lbs.



No. 750

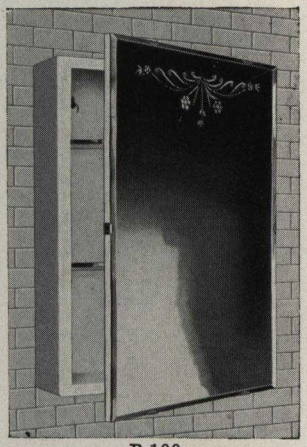


N-54

No. N-45 Recess Cabinet

The all steel cabinet illustrated at the left is an ornament to any bath room. Although this cabinet does not have a full mirror front, the mirror, which has a very neat engraving, covers the entire door of the cabinet, and the exposed cabinet frame makes a very lovely setting for the 14x18″ bevel plate mirror which is mounted on the felt padded solid steel door with polished monel metal clips. The door has a monel metal pull for opening instead of weakening the mirror with a hole drilled for knob pull. Friction ball catch. Nickel plated door stop. Finest Sno-white BAKED ENAMEL finish. Two adjustable plate glass shelves. Frame size 16x20″. Inside depth 4″. Wall opening 13⅞x17⅞-x3″. Shipping weight 25 lbs.

The cabinets on this page, while reasonable in price, are very attractive and are some of our more popular sellers.



B-100

No. B-100 Wall Cabinet

The handy all steel wall hanging cabinet to the right cannot be surpassed for its beauty, durability and utility. This cabinet has a frameless mirror door with a neat and attractive engraving on the 16x22″ bevel plate mirror which is mounted on a felt padded solid steel door with polished monel metal clips. We recommend this cabinet for the bathroom, wash room, kitchen or any place where a mirror is needed plus sufficient room for medicines, toilet articles or spices, etc. Finished in the finest Sno-white BAKED ENAMEL—making it easy to wash and keep spick and span, and will last indefinitely. Two adjustable plate glass shelves. Friction ball catch. Invisible hinges with door stop combination. Cabinet size 14⅞x21″, 5″ deep. Shipping weight 30 lbs.

Utility All Steel Household Cabinets

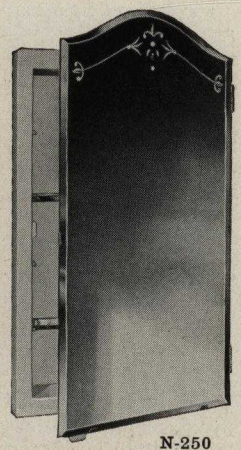
N-150

N-150 Recess Cabinet

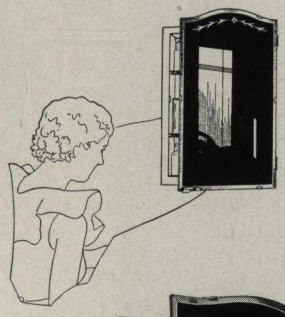
The all steel Venetian Mirror cabinet illustrated above we recommend as a distinctive feature for the inexpensive bathroom where space does not permit a larger cabinet. We have not sacrificed appearance and quality in this cabinet, but when a small cabinet is required you can do no better than to select this one. The storage space in the cabinet is larger than you would suspect from the outside appearance because of the construction and the way the door is hinged on the cabinet. The neat engraving on the fine bevel plate mirror is in conformity with the size of the mirror. Mirror size 14x20″ mounted on solid steel felt padded door with polished monel metal clips. Friction ball catch. Nickel plated door stop. Monel metal thumb pull on door. Sno-white BAKED ENAMEL finish. Two adjustable plate glass shelves. Frame size 14x17¾″. Inside depth 4″. Wall opening 12¼x16x3″. Shipping weight 21 lbs.

N-250 Recess Cabinet

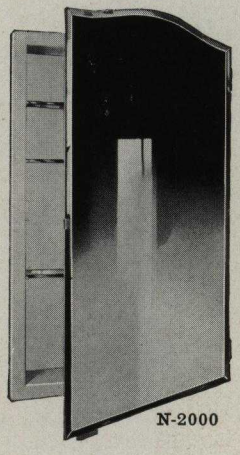
At the right we illustrate one of our splendid quality all steel Venetian Mirror cabinets, which has spacious storage room in comparison with the outside appearance, owing to the construction and manner of attaching the hinges to the door. Neat engraving on the finest quality bevel plate mirror, size 14x24″. Mirror mounted on solid steel felt padded door with polished monel metal clips. Friction ball catch. Nickel plated door stop. Monel metal pull on door. Sno-white BAKED ENAMEL finish. Three adjustable plate glass shelves. Frame size 14x21¾″. Inside depth 4″. Wall opening 12¼x19¾x3″. Shipping weight 25 lbs.



N-250



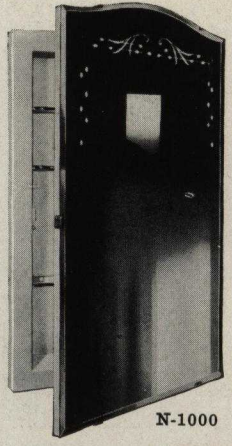
The exquisite cabinets on this page furnish a wonderful collection to select from when in need of the finer type of cabinet with more spacious room, than other styles with same mirror size.



N-2000

N-2000 Recess Cabinet

The all steel cabinet illustrated at the left has a full mirror front—in a plain bevel plate style. There is more storage space in this cabinet than in other styles of cabinet with the same size mirror—because of the construction and manner of hinging the door to the cabinet. The 18x28″ plain bevel plate mirror of the finest quality is mounted on a solid steel felt padded door with monel metal clips. Friction ball catch. Nickel plated door stop. Monel metal pull on door. Sno-white BAKED ENAMEL finish. Three adjustable plate glass shelves. Frame size 18x26¾″. Inside depth 4″. Wall opening 16x25x3″. Shipping weight 35 lbs.



N-1000

N-1000 Recess Cabinet

This all steel Venetian Mirror cabinet to the left has finest quality mirror with polished and satin finished etching of a very artistic design. This cabinet, like our N-2000, has more storage space than other cabinets with the same size mirror. There is beauty and quality in this cabinet combined with spacious cabinet room. The 18x28″ etched bevel plate mirror is mounted on a solid steel felt padded door with polished monel metal clips. Friction ball catch. Nickel plated door stop. Monel metal pull on door. Sno-white BAKED ENAMEL finish. Three adjustable plate glass shelves. Frame size 18x26¾″. Inside depth 4″. Wall opening 16x25-x3″. Shipping weight 35 lbs.

N-450 Recess Cabinet

The all steel Venetian Mirror cabinet is a most popular cabinet with those who wish a scroll etching design on the mirror. This cabinet is also popular with those who wish more cabinet room, which is made possible on account of the construction and the way the door is hinged on the cabinet. The 16x24″ etched bevel plate mirror is mounted on a solid steel felt padded door with polished monel metal clips. Friction ball catch. Nickel plated door stop. Monel metal pull on door. Sno-white BAKED ENAMEL finish. Three adjustable plate glass shelves. Frame size 16-x22¾″. Inside depth 4″. Wall opening 14⅛x20⅞x3″. Shipping weight 31 lbs.

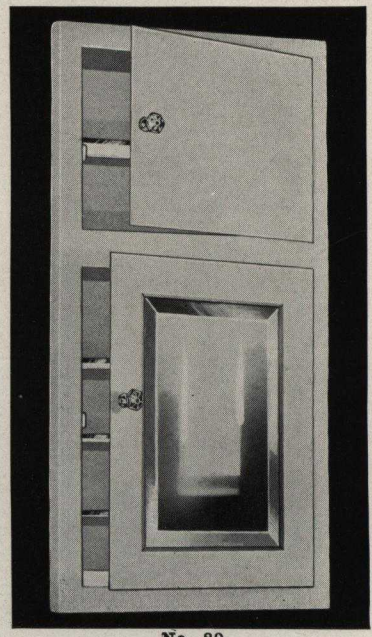
No. 89 Combination 2-Door Cabinet . . Recess Style . . . Supply Compartment

Please note our New Supply Compartment all steel cabinet in the illustration below at the right. Our engineers designed this cabinet to meet a long felt need for a cabinet with ample storage space. The supply compartment is an excellent repository for towels, a reserve supply of soap, or a supply of any articles which cannot be cantained in the cabinet proper. THIS CABINET CAN BE USED EITHER END UP—as the shelves are reversible, so that the supply compartment can either be above or below the cabinet proper. To reverse the cabinet with the compartment at the bottom the door will swing to the left. This cabinet is finished with Sno-white BAKED ENAMEL. Friction ball catches on doors. Invisible hinges with stop combination. Crystal glass door knobs. Three plate glass shelves. Mirror 10x14″ bevel plate. Frame size 16¾x32⅝″. Wall opening 14⅛x30x3¾″. Inside dimensions towel compartment 13¾x10x5″ deep. Inside dimensions cabinet proper 13¾x17½x5″ deep. Shipping weight 35 lbs.

Standard Recess Steel Cabinet with Open Shelf

The illustration at left shows inside view and below shows closed view of our sturdy built all steel open shelf cabinet, which is ideal for hospitals, apartments, and hotels, and very popular for government projects. The open compartment at the bottom provides ample shelf space for articles in use while the door is closed.



No. 89

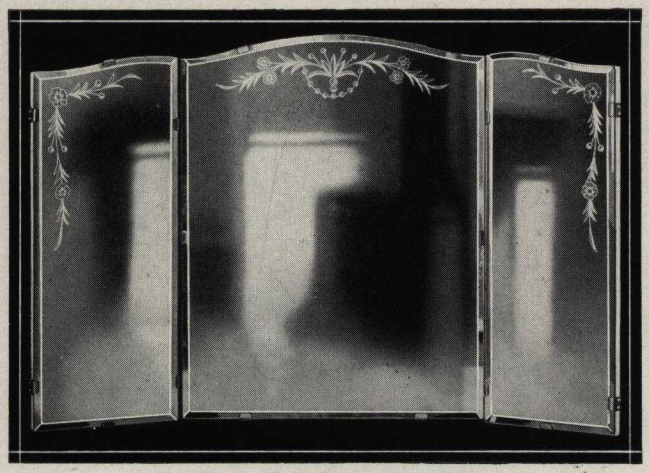
National's DeLuxe Line of Wall Mirrors



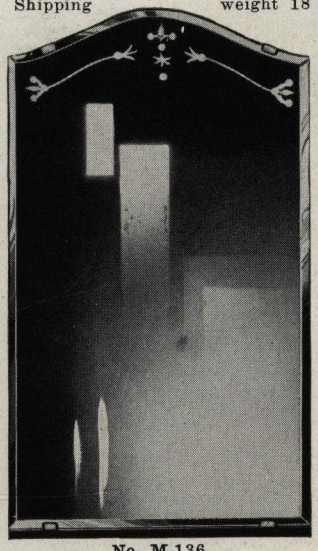
No. M-130 Wall Mirror With Wings

M-130 Winged Mirror

This artistically etched, fine quality bevel plate wall mirror instantly appeals to every one desiring a final touch of elegance over the lavatory or dressing table. The three way vision makes this wall mirror a favorite because of its utility and distinctive beauty. The movable wing mirrors are mounted on one piece solid steel felt padded backs. The center mirror is mounted on a solid one piece felt padded steel door, hinged to a steel box 1¼" deep. Door opens to allow fastening on the wall. The bottom of the box affords a shelf space 15" long and 1¼" wide. Center mirror size 16x20". Wing mirrors 8x18¾". The box and mirror backs are finished in black lustre or Sno-white BAKED ENAMEL. Shipping weight 38 lbs.

No. M-136 Wall Mirror

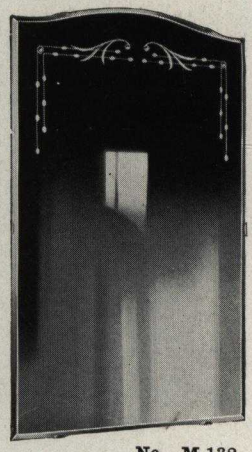
The Wall Mirror illustrated below—is size 14x24". This fine quality etched, bevel plate mirror is mounted on solid steel, felt padded back with monel metal clips. The mirror hangs flush with the wall by means of invisible hangers on the back. Metal back finished in black lustre or Sno-white BAKED ENAMEL. Shipping weight 18 lbs.



No. M-136

No.M-132 Wall Mirror

The beautiful Wall Mirror to the right is an ornament to the finest bath room, bed room, hall, or in fact any room in the finest home. The illustration does not do justice to this Wall Mirror. The fine quality of bevel plate mirror and etching in polished and satin finish gives it an aire of elegance. Mirror size 18x28", mounted on one piece solid steel, felt padded back with polished monel metal clips. Hangs flush with the wall with invisible hangers. Steel back finished in black lustre or Sno-white BAKED ENAMEL. Shipping weight 24 lbs.



No. M-132

No. M-133 Plain Mirror . . . No Etching

The M-133 Wall Mirror is identical with our No. M-132 except it has no etching on the mirror.

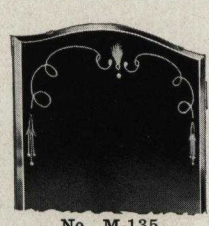
No. M-134

No. M-134 Wall Mirror

The illustration at the left is a medium size WALL MIRROR and will fill a need in any home, hospital, school, or office. The etching on the fine quality bevel plate mirror is well balanced and just enough to lend beauty to its appearance. The mirror is mounted on a one piece felt padded, solid steel back with polished monel metal clips. Hangs flush with the wall by means of invisible hangers. Mirror size 16x24". Back finished in black lustre or Sno-white BAKED ENAMEL. Shipping weight 20 lbs.

No. M-135 Wall Mirror

The small illustration below, at the right, is a companion to our No. M-134. The only choice between the two Wall Mirrors is the etching. Mirror size 16x24" mounted on a one piece solid steel, felt padded back with monel metal clips. Hangs flush with the wall on invisible hangers. Back finished in black lustre or Sno-white BAKED ENAMEL finish. Shipping weight 20 lbs.



No. M-135

M-131 Winged Mirror

The three way vision Wall Mirror at right is smaller size than our No. M-130. The movable wing mirrors give a clear vision of the back of head and shoulders. The neat etching on the fine quality bevel plate mirrors makes a very attractive fixture for over the lavatory or dressing table. The wing mirors are mounted on one piece solid steel, felt padded backs with monel metal clips. The center mirror is mounted on a solid steel, felt padded door which is hinged to a steel box 1¼" deep. The hinged mirror door opens to allow hanging. The bottom of the box affords a shelf space 14" lang, 1¼" wide. Center mirror 14x20". Wing mirrors 7x17¾". The box and mirror backs are finished in black lustre or Sno-white BAKED ENAMEL. Height 13″; width 23″; depth 6″. Shipping weight 15 lbs.

We build any size cabinet or steel box to order. Send specifications for special quotations.

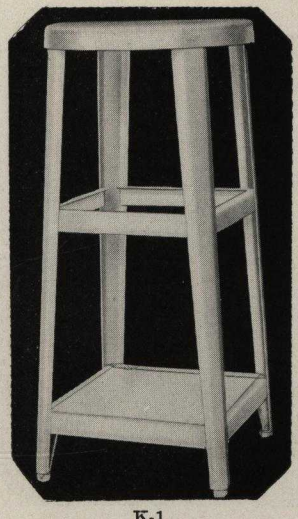
All Steel Stools

For Bathroom, Kitchen, Stores, Shops, Factories, Offices, Doctors, Dentists, Hospitals and Schools.

B-1

B-1 Bathroom Stool

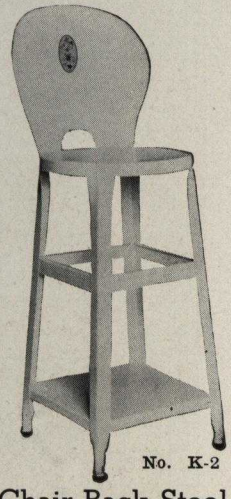
The bathroom stool illustrated above is substantially built of steel which is electrically spot welded into practically one solid piece. The thick rubber tips on the bottom of the legs prevents marring of the floors. Genuine Sno-white BAKED ENAMEL finish. Diameter of top 11¼″. Height 16″. Shipping weight 8 lbs.



K-1

No. K-1 Steel Stool

From the illustration at the left you can visualize the appearance of our K-1 stool, which is finished in Sno-white BAKED ENAMEL. This all steel stool is electrically welded into practically one solid piece and is sufficiently braced to make it rigid and substantial. The utility of the stool is indispensable in the kitchen and fills a need in the store—shop—factory—Doctors' and Dentists' office—hospital and school. The thick rubber tips on the bottom of the legs prevents mars or slipping on polished floors. Stool top 11¼″ in diameter. Height 23″. Shipping weight 10 lbs.



No. K-2

K-2 Chair Back Stool

The stool illustrated above is one of our sturdy built, all steel stools which is electrically welded together, and the back makes the stool very comfortable. The legs are equipped with thick rubber tips. Genuine Sno-white BAKED ENAMEL finish. Height, floor to seat level 23″; to top of back 34½″. Diameter of seat 11¼″. Shipping weight 17 lbs.

National Household Specialties

3-in-1 COMBINATION SANITARY BATH-TUB, STOVE, AND WATER HEATER

Sanitary, convenient, practical, economical outfit—offered as combination or either of the 3 items furnished separately.

No. H-567

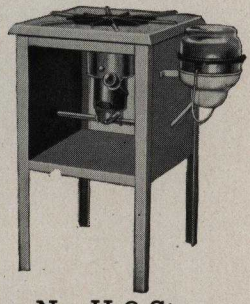
No. H-7

Heater Tank

The heater tank illustrated above is equipped with handles on each side and can be easily moved about as a separate water tank or used in connection with the 3 in 1 combination.

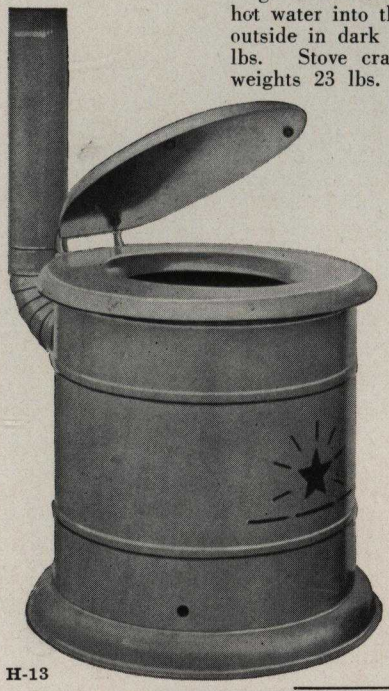
Complete 3-in-1 Combination

The Three-In-One Sanitary Bathtub, Stove and Water Heater Combination is a necessity in every home not equipped with modern plumbing. The Bathtub is made of three pieces of 24 gauge galvanized sheet steel, seamed and soldered together, which makes it very strong, and has a wood rim bolted to the iron legs which are attached by means of an iron bracket bolted to the legs. The bathtub is equipped with a drain fitting so it can be drained through the floor or side wall with ordinary piping or a short piece of garden hose. Finished outside in dark green enamel with the inside and rim finished in white. The Heater which is made of steel with an iron grate, being equipped with a Kero-gas burner, burns kerosene making it free from danger. Stove top is 17¾″ square; 29″ high; shelf 13″ up from the floor. Stove finished in dark green with the grate finished in black. The Heater Tank, made of galvanized steel, equipped with a faucet for conveniently draining the hot water into the bathtub, has a capacity of 9 gallons and is finished outside in dark green enamel. Bathtub crated for shipment weighs 95 lbs. Stove crated for shipment weighs 40 lbs. Heater tank crated weights 23 lbs. For complete outfit, order No. H-567.



No. H-6 Stove

The Kerosene Stove as illustrated above can be moved from one place to another. When in need of an extra burner for cooking this stove takes care of the need. In fact, there are innumerable uses for this handy stove to be used as a separate unit.



H-13

No. H-5, Bathtub Only

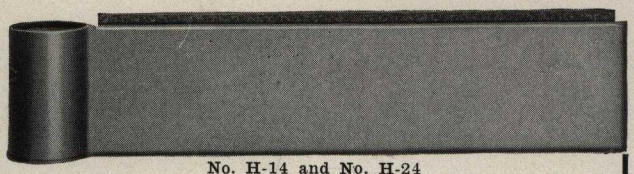
The Bathtub is big and roomy, made in two sizes, 5 ft and 5½ ft length of rim. Can be moved about easily and placed wherever desired. The Bathtub is separate and can be used independent of the Heater. For tub only, order No. H-5.

No. H-13

CHEMICAL TOILET

The convenience and comfort of having an Indoor Toilet in the home in a rural community cannot be over estimated. No plumbing required. Easily prepared for use by placing water and some of the special chemical furnished in the inner container according to directions. The inner container is easily removed for emptying. The vent pipe gives a circulation of air. This Toilet is all steel except the wood seat making it strictly sanitary. A sufficient supply of special chemical is furnished with each toilet to last an ordinary family three months. This chemical absolutely does the work for which it is intended—and there is no odor, when used as directed, in connection with the vent pipe provided. Complete outfit consists of outer drum, seat, six joints of pipe, two elbows, one 6 to 3 inch chimney reducing collar, all finished in dark green enamel, one galvanized steel inner container, one toilet paper holder, one roll toilet paper, one can special chemical. Inside dimensions of outer drum 14x14″, inside container 12x12″, holds 5 gallons, overall dimensions of toilet 16x16″. Packed in carton weighs 24 lbs.

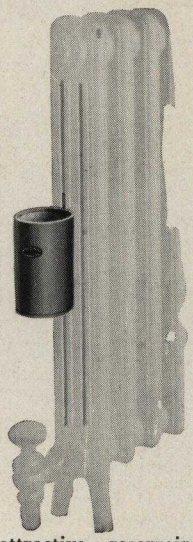
National Humidifiers

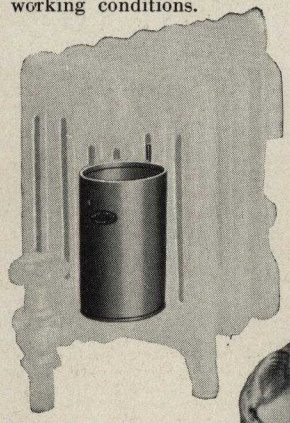


No. H-14 and No. H-24

"HEALTH-AIRE"

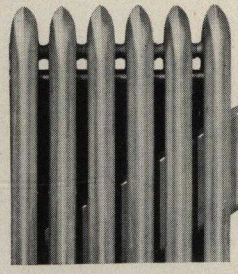
Our Health-Aire humidifier in every radiator solves the humidity problem in any room. Fits any steam, hot water or vapor radiator. Why invite colds, influenza, bronchial, nasal, skin affections and other winter ills? Why allow furniture and woodwork to loosen, walls and paper to crack? Dry, parching, dust laden air is eliminated when radiators are equipped with Health-Aire humidifiers. Enjoy real comfort and health instead of that tired, dragged out feeling that comes with breathing dry, stuffy, over-heated air. In homes, stores, offices, shops, schools and hospitals Health-Aires have worked wonders by furnishing moist air and creating healthful living and working conditions.





The attractive reservoir, only, shows when Health-Aire is installed. Health-Aire slides between the radiator coils — a special wick is kept continually moistened its entire length. Our patented metal wick holder with legs permits ample circulation of water. The reservoir is quite large and only requires filling once a day.

Simple installation—no tools—nothing to fasten — just slide it into place. Health-Aire is well made of heavy galvanized rust proof sheets, nicely finished in either silver or gold bronze. Made in two sizes—14″ for 6-section radiator, 24″ for longer radiator. In ordering "Health-Aire" Humidifiers be sure to specify sizes and finish wanted.



"BETTER-AIRE"
HUMIDIFIER NO. H-15

An advanced type of practical Humidifier. Substantial —all metal except the wicks. The special wicks draw the water up from the reservoir by capillary attraction, *creating a moist surface over thirty square feet of wick.* This broad space of moist surface with the electric fan blowing between and over the wicks, greatly *increases the natural evaporation and maintains a steady flow of healthful, moist air.* As an Air Cooler in hot weather—the wick unit can be easily lifted out and replaced with a cake of ice. The operation of the fan on the ice not only reduces the temperature but also absorbs the humidity in the air. To disinfect or deodorize — put a few drops of oil of eucalyptus, wintergreen, cloves, anise, perfume, incense, disinfectant, deodorizer—your choice—on the wicks and soon the atmosphere of the room will be permeated with the scent.

DIMENSIONS

Table 24½″ high; 12″ wide; 16½″ long. Humidifier unit is 13¼″ high; 11 5/8″ wide; 16″ long (above table). Humidifier unit is portable and is separate from the table and can be lifted off the table and placed on a wall bracket, desk or even on the floor. Table and humidifier unit are priced separately. The "Better-Aire" comes equipped with an electric motor and fan for use with 110 to 120 volt, 50 to 60 cycle. **Alternating current only.** These motors do not cause radio interference.

Portable — Nothing to Install — Inexpensive to Operate — Medical Authorities, Scientists, Health Specialists, recommend the use of Humidifiers

For Homes, Offices, Stores, Factories, Schools, Hospitals, Libraries, Clubs

Beautifully Finished

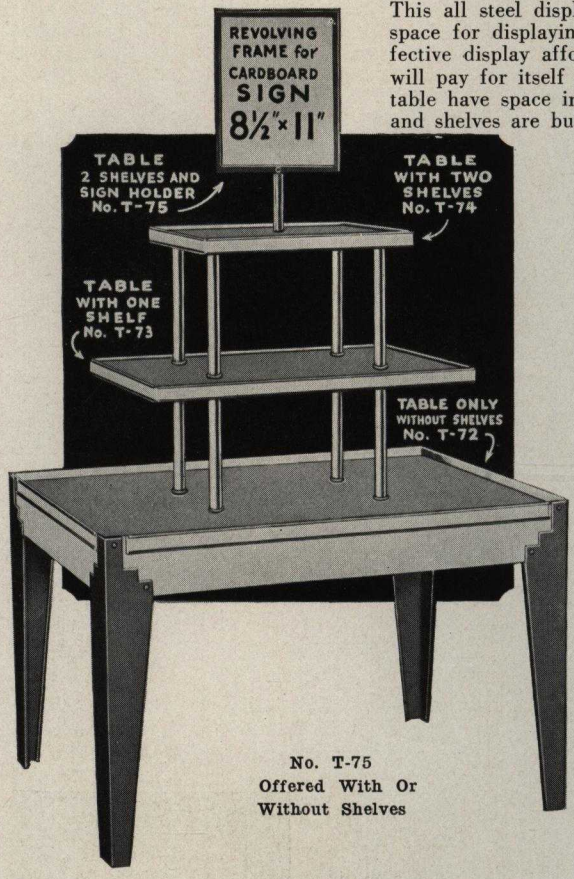
NATIONAL METAL PRODUCTS COMPANY, Waterloo, Iowa

National Merchandise Display Tables



REVOLVING FRAME for CARDBOARD SIGN 8½"x11"
TABLE 2 SHELVES AND SIGN HOLDER No. T-75
TABLE WITH TWO SHELVES No. T-74
TABLE WITH ONE SHELF No. T-73
TABLE ONLY WITHOUT SHELVES No. T-72

No. T-75
Offered With Or
Without Shelves

This all steel display table to the left—illustrated in its' entirety—furnishes ample space for displaying a complete line of products to wonderful advantage. The effective display afforded by this table, attracting the eye, is a silent salesman, and will pay for itself many times over. The edges of the shelves and top edge of the table have space in which to slide price tags if you wish. The table top and legs, and shelves are built of heavy furniture steel. The legs are bolted on and the balance of the table is electrically welded into practically one solid piece. The shelves are supported by pipe tubing, 1" outside diameter. The strong re-inforcement underneath the table top holds the shelves very rigid when tightening the four nuts on the bolts extending through the table top. This table is strong enough to hold 800 pounds of merchandise. Beautifully finished in Sno-white BAKED ENAMEL, with the legs in dark green.

Complete Display Combination, No. T-75
AS SHOWN

Table is 28" high. Table top 30x42". Shelf sizes, 19x29½" and 15½x19". 11¼" between the table top and first shelf, also between the first shelf and second. The 8½x11" cardboard sign, encased in the metal frame, furnishes sufficient space for advertising material. The table is crated for shipment with the shelves assembled, but detached from the table, and securely fastened underneath the table which is set up. When uncrated the assembly is very easy—simply place the bolts which etxend through the shelf supports in the holes in the table top and tighten the four nuts underneath the table. Shipping weight 113 lbs. When ordering the complete combination specify Display Table No. T-75.

Table with Two Shelves, No. T-74

We furnish the table and two shelves, without the revolving frame for sign, for those wishing to display a well known brand of products which does not require any advertising. Shipping weight 111 lbs. When the revolving frame is not desired, specify on your order Display Table No. T-74.

Table with One Shelf, No. T-73

We furnish the table and one shelf as a complete unit when less display space is needed. Shipping weight 96 lbs. When ordering table and only one shelf specify Display Table No. T-73.

Table "Only," No. T-72

We furnish the table only, without the shelves and revolving frame for sign. The table has a roomy top, and when needing only the table top for display purpose this table is surpassed by none. Shipping weight 86 lbs. When ordering table only specify Display Table No. T-72.

General Purpose Display Tables

T-76 Display Table with 4 shelves illustrated at the right is made of strong gauge furniture steel, electrically welded, with reinforced legs. The table is sufficiently strong to carry a display of items which the shelf space will hold. All four shelves are on the level for displaying from either side of the table. Finished in light green or Sno-white BAKED ENAMEL. We furnish this table in two sizes, which you may specify as T-76 Small or T-76 Large. Dimensions—T-76 SMALL, 7½" wide at top; 15" wide at bottom; 36" high; 36" long. Packed in crate. Shipping weight 53 lbs. T-76 LARGE, 12" wide at top; 24" wide at bottom; 46" high; 48" long. Packed in crate. Shipping weight 104 lbs.

T-76
In Two Sizes

T-77
In Two Sizes

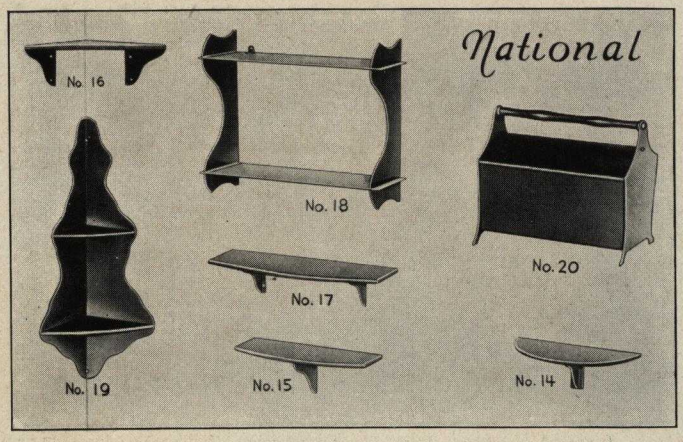
Table to meet a need for display purposes in Department Stores; Furniture, Hardware and Grocery Stores; Plumbing Shops; Bakeries—in fact any place where a display table is needed.

T-77 Display Table to the left with 3 shelves made of a strong gauge furniture steel, electrically welded, with reinforced legs, is strong enough to stand up under a display of items which the shelf space will hold. This table displays items from one side. The top shelf, as shown, slopes slightly to the front with a flange on the edge for holding any article displayed. Finished in light green or Sno-white BAKED ENAMEL. We make this table in two sizes which you may specify as "T-77 Small" or "T-77 Large". Dimensions—T-77 SMALL, 7½" wide at top, 15" wide at bottom; 30" high; 36" long. Packed in crate. Shipping weight 51 lbs. T-77 LARGE, 12" wide at top; 24" wide at bottom; 46" high; 48" long. Packed in crate. Shipping weight 97 lbs.

National Home Decoration Specialties and Utilities

Novelty Items Illustrated Below

The whatnots—suitable for holding books and ornaments, give an extra decorative touch to the room. As they are made of steel there is no danger of warping out of shape or pulling apart. The handy sewing basket—can be conveniently carried about by the handle, and has a hinged cover, opening from either side, to keep the contents clean. This being made of steel electrically welded into practically one solid piece protects the contents from dirt sifting through. These items are finished in brown crackle finish, or will be furnished in a prime coat for application, by the user, of a finish to match the decorations in the room.



No. 14—A half round shelf with one bracket. Length 9¼", depth 4½". Packed 6 in a carton. Shipping weight 10 lbs.

No. 15—An oblong curved edge shelf with one bracket. Length 11", depth 4¼". Packed 4 in a carton. Shipping weight 10 lbs.

No. 16—A straight edge shelf with two brackets to fit in the corner. Length 11", depth 5½". Packed 6 in a carton. Shipping weight 10 lbs.

No. 17—An oblong curved edge shelf with two brackets. Length 14½", depth 5". Packed 6 in a carton. Shipping weight 18 lbs.

No. 18—Has two straight shelves. Length 15", depth 5½", height 12", between shelves 9". Packed 6 in a carton. Shipping weight 37 lbs.

No. 19—Has two shelves and fits in the corner. Height 21½". Top shelf 3⅝" deep, 6½" wide. Bottom shelf 5¼" deep, 9¼" wide. 7¾" between shelves. Packed 4 in a carton. Shipping weight 22 lbs.

No. 20—Sewing basket is 10½" long, 7½" wide, 9½" height overall. Packed 3 in a carton. Shipping weight 22 lbs.
